Managed Clinical Network - Neonatal West of Scotland

Member's Duties – Draft (for discussion)

The nominated members listed above will have the following duties

Attending the guideline group meetings in their designated role or, if required, nominate a deputy.

Contributing to guideline development

Liaising with their peers, in their local units, in the development and ratification of guidelines developed by the group

Feeding back any comments, suggestions or amendments raised by their peers, to the guideline group at the appropriate stage of guideline development

Liaising with local stakeholders including the following local groups (where appropriate)

Obstetric staff

Midwifery staff

Infection control

AHPs

Radiology

Medical speciality groups

Local management

Confirming local acceptance and implementation date of finished guidelines

Local dissemination and education to ensure full adoption of agreed guidelines

Ensuring local availability of the finished guidelines and, where appropriate, removal of printed copies of obsolete guidelines

Coordination of local audit to monitor adherence to adopted guidelines
